

MISSION: To identify and overcome existing barriers to access transportation both locally and regionally and expand potential ridership and transportation options across Kansas, by increasing awareness of public transit, fostering mobility coordination among transit agencies, and building local and regional partnerships.

Informing and Connecting

- Led 40 public outreach efforts to assess local transportation needs
- Hosted 446 travel training events in our respective regions

Empathizing and Advocating

- Participated in 98 social service or local community groups
- Partnered with 50 local transportation providers to educate officials

Convening and Facilitating

- Met with 116 new community stakeholders
- Led 34 events in our regions

Designing and Planning

- Participated in 36 local improvement efforts within the CTD
- Attended 23 MPO committee meetings

Launching and Sustaining

- Contributed to 43 new regional or statewide programs
