Our goals include:

**Promoting Independence:** Maintain the quality of life for individuals who live in our communities and increase awareness and perception of transportation services.

**Building Connections -** Improve the efficiency and effectiveness of transit service so more Kansans can be served and increase the level of communication, cooperation and coordination among existing providers.

**Preserving Rural Living -** Allow Kansans to stay within their current communities and increase and enhance the level of connectivity between activity centers (i.e., cities, major employers, major medical facilities).
